

Appointment times: Appointments will start and end at the scheduled times, regardless of when the patient arrives for the appointment. Dr. Barowsky has patients scheduled back-to-back and is therefore unable to extend appointment times.

Cancellation policy: Please cancel appointments at least 24 hours prior to the appointment. Otherwise, you will be charged at the regular rate for the canceled/missed session. Both telephone and email are acceptable ways to alert Dr. Barowsky of a cancellation.

Fees: Dr. Barowsky's services are billed based on an hourly rate unless otherwise arranged. Initial assessments are always slotted for 1-hour. Therapy sessions are typically 50 to 60 minutes in length while medication follow-up visits run 25 to 30 minutes. Please contact Dr. Barowsky in advance of scheduling an appointment if you have questions related to his fees.

Insurance: Dr. Barowsky does not accept insurance in his private practice even though his name may be listed under different insurance plans. Receipts can be provided, at patients' request, in pursuance of out-of-network insurance reimbursement. Dr. Barowsky is unable to see patients with Medicare through his private practice.

Payment: All outpatient visits must be paid for at the time of the visit. Dr. Barowsky requires that you provide a valid credit card to be billed if an appointment is missed or not canceled within the requisite time noted above or if payment for past service is in arrears.

Phone and e-mail contact: Dr. Barowsky is happy to return routine phone calls and e-mails free of charge within one business day. Please be aware that e-mail is not a confidential means of communication.
